I have observed a certain camp kettle doing duty in no less than four companies, and three distinct avenues of the camp owe the

When the boys first came out they were rather afreid, heing unused to country life, of the hogs, fat choats, &c., which were running about that camp, and in eaveral instances they were, as a defensive measure, knocked in the head. A disposition also seemed to exist among geese end ducks to quack and cackle, it was thought by the men, at their style of drilling, and suffered severely from the indignant soldiers who were not to be cackled at.
